RULES FOR PARTICIPATION IN EDUCATIONAL ACTIVITIES AT THE MUSEUM AND MEMORIAL IN SOBIBÓR (MMPS)

1. MMPS offers school groups educational activities, including workshops and guided tours of the Museum grounds and exhibitions.
2. A school group is defined as up to 30 students who are at least 14 years old (from the 8th grade of primary school).
3. The activities, which include visiting the permanent exhibition and the memorial site, last approximately 2–3 hours, depending on the selected topic. About half of this time is spent outdoors.
4. Before the visit, the teacher informs students about the purpose of the trip and the topic of the activities. We also encourage reviewing the guidelines on how to prepare students for the visit.
5. When making a reservation, the teacher must inform the museum educator if the group includes individuals with disabilities or special educational needs.
6. The teacher ensures the group arrives on time and informs the museum educator in advance of any delays or changes to the duration of the activities.
7. During the visit, the museum educator is responsible for the educational content and the conduct of the activities; however, the teacher remains responsible for the group and its behaviour.
8. The teacher agrees to the MMPS working methods and undertakes to comply with these rules for participation in educational activities.
